Horn of America Model A680 — Quilter's Block Center & AccuQuilt Cutting Table

General description: The Horn of America Model A680 is the ultimate dedicated workstation for quilters who use fabric die cutters — especially the AccuQuilt GO! and GO! Big systems. Built to keep your AccuQuilt setup permanently organized and ready to use. Remove the die support table and you have a generous standalone cutting table for any quilting project. Handcrafted in Sutton, West Virginia, USA.

Key Features

64" × 40" Cutting Surface

Hands-Free Die Support Table
Mounts on the right or left side — supports dies as they exit the AccuQuilt cutter without you holding them.

Left & Right Drop Leaves

Built-In Die Storage
Stores up to 15 dies (10"×10") and 14 dies (10"×24") with organized dividers.

Adjustable Shelving

Lockable Casters
